	Email: ali.mousa152004@gmail.com	
	Bachelor's Degree in Data Science & Artificial Intelligence	
	Helwan International Technology University	
PROFESSIONAL SUMMARY	2023 – 2026 (Expected)	
	Data Science and Artificial Intelligence student with hands-on experience in machine learning, computer vision, and data analysis. Skilled in building real-world AI solutions, including face recognition systems and IoT-based automation projects. Proficient in Python, SQL, and Power BI for data-driven decision-making, predictive modeling, and dashboard development. Strong ability to clean, analyze, and visualize data to generate actionable insights	
CERTIFICATES	Machine Learning for Data Scientists — Mahara Tech ITI	
	SQL Programming — Mind Luster & DataCamp	
	Python Programming Basics — Mahara Tech ITI	
	Summer Training — Modern Gas Company & CIB Bank	
PROJECTS	Introduction to AI, ML, and Quantum ML — Ministry of Youth and Sports	
	Artificial Intelligence — NTI & Huawei Talent	
	Hospital Patient Face Recognition System	
	Real-time computer vision system for automated patient identification and check-in.	
	Detects and recognizes faces from live video, matches them with a patient database, and logs visits with timestamps.	
	Bank Marketing Analysis & ML Prediction Dashboard	
LANGUAGES	End-to-end data analysis and machine learning project on a 45K+ customer dataset.	
	Includes predictive modeling and an interactive Power BI dashboard to analyze campaign performance and customer behavior.	
	Arabic: Native	
	English: Intermediate (Technical Proficiency)
